WHITEWOOD.

—Mr. Philip Curry an enterprising
stock raiser has introduced a hun-
dred sheep upon his farm. Mr. Curry
had the largest Dairy upon the Pipe-
stone then the largest land of poles
and now the largest flock of sheep.
We wish such an enterprising man
unqualified success.

—Mr. John Street of this thriving
town is adding to its virgin fame by
introducing a "Martin" Machine for
making bricks it will then cut ten
thousand per day, every Whitehead
house has a brick field.
The future of the Whitehead and its
future will be brick veneer or solid
brick. Mr. Street's house is of solid
brick.

—Litigation is keeping the first of
our School Districts at stand still
and the squabble is very unseemly and
ridiculous and can be attributed to
little else than obduracy. It would
be well if the whole of the school
could find as zealous support as can
these pugnacious school officials.
We trust these men here after the
recent legal decision concluded to let
the school run in place of course with-
out their interferences, if the money
which has been spent upon litigation
and irregularities had been employed in
connection with school necessities,
debentures would not be needed.
Sunnymead was the first to move in
school matters we trust Sunnymead
will not allow herself to be the last
in the race for the education of her
children.

—The Reformers of this locality
held a meeting on Friday last and
appointed their officers and instituted
a petition to catch pledges to their
cause. Their candidate was not named
definitely but Clappell of Moosemount
and Turfiff of Moose Mountain are
entrained.

INDIAN HEAD COUNCIL.

Jan. 18th 1887.

The clerk on calling the council
to order found the new council
assembled in full force viz:—J. H.
Bunnell representing ward No. 1;
H. O. Partridge and D. Quigley,
ward No. 2; E. J. Brooks, ward
No. 3; Wm. Broley, ward No. 4;
Isaac Powell and John Borland,
ward No. 5.

After filing their certificates and
declarations of office, they were
called upon to select their chairman,
and on motion by councillors J. H.
Bunnell and D. Quigley Wm. Broley
was again elected to that position.

On motion by councillors Par-
tridge and Brooks the chairman ap-
pointed councillors Partridge, Pow-
ell and Brooks a committee to
appoint the standing committee for
the year. They report in favor of
councillors Brooks, Partridge and
Bunnell being a committee on
finance, assessment and safety;
councillors Powell, Broley and
Borland, roads and bridges; coun-
cillors Partridge, Quigley and
Brooks, education, health and charity

Bunnell and Borland was adopted.

Moved by councillors Partridge
and Bunnell that council suspend
general order of business in order
to take up an application from the
Qu'Appelle Valley Farming Co.
through their agent Mr. Dundup for
an extension of two weeks time to
pay their municipal taxes and also
hear a complaint from R. C. Highy
against his usage by the collector.
The council were in favor of ex-
tending the time as requested by
Mr. Dundup and suggested to the
collector the advisability of restrain-
ing from harsh measures until the
expiration of the time asked for.
As the matter complained of by
R. C. Highy did not come under the
jurisdiction of the council it was
laid aside and the council resumed
the general order of business.

Moved by councillors Partridge
and Brooks that all communications
and bills be laid before the several
committees. Carried.

The finance committee reported
in favor of paying R. Railton, station-

ary, postage, etc., \$5.35; Johnson
& Forbes, Solicitors, on account,
\$50.00; Wm. Douglas, clearing
road and repairing culvert, \$5.00;
Geo. Thompson expenses to Regina,
\$12.00; that Frank Schofield be re-
leased from paying taxes on his
place for 1886; that Geo. Ferguson
is not entitled to release from his
taxes in arrears as he had an entry
for the land previous to its assess-
ment; that the council accept pay-
ment of taxes from the Ontario &
Quebec Land Co. and that the council
right to pay on, according to a list
sent the treasurer by said company;
that the recommendation of Johnson
& Forbes be carried out regarding
school rates in the Indian Head and
Wide Awake school districts, and
that the clerk be instructed to en-
ter in pencil on the roll the amount
which will be required to cover
estimated expenses.

and Quigley that report of finance
committee be adopted. Carried.
The committee on charity recom-
mended in the Luse case that the
following accounts be paid: Messrs.
Love & Raymond, board and lodging,
\$20.00; Dr. O. C. Edwards,
medical attendance, \$20.00; Jas.
C. Glenn, livery service, \$5.00;
Moved by councillors Powell
and Borland that report of com-
mittee on charity be adopted.
Carried.

By laws were then submitted for
paying expenses in connection with
the Luse case and for the exemp-
tion of F. Schofield from taxes for
1886 which received their several
readings and passed.

On motion of councillors Bunnell
and Quigley, resolved that orders
be drawn on the Treasurer for the
several amounts recommended to be
paid by the finance and charity
committees.

Moved by councillors Brooks and
Partridge that council now adjourn
to meet on Saturday Feb. 12th,
1887. Carried.

THE LIEUTENANT GOVERN- ORSHIP.

As the time has arrived when
the question will have to be decided
as to whether Mr. Dewdney is to be
continued in his present office or to
make way for another, much inter-
est, and we may even say anxiety,
is being manifested throughout by
the people of the Territories. It
would of course be idle to expect
perfect unanimity of sentiment on
such a subject, but there can be no
reasonable doubt that the reappoint-
ment of Mr. Dewdney would be
most welcome to a great majority of
the people. This in itself speaks
volumes in favor of the Lieutenant-
Governor, when we remember how
violently his original appointment
was assailed by parties of all shades,
and what he must have done to live
down this prejudice. Still more
may be inferred from his success
when it is remembered that his
popularity has grown under the ad-
ditional disadvantages of having to
be gained by one having the unen-
viable responsibility of adminis-
tering the permit system. While all
who are in a position to judge, ac-
knowledge that permits have been
granted as impartially as possible
under the circumstances, numbers
from whom they have, for good reason,
been withheld, have been en-
dured, while on the other hand
the inability of the Governor to
abuse the authority vested in him,
by refusing, contrary to the intention
of the law, to admit any liquor into
the Territories at all, has made the
extremists of the prohibition party,
unfriendly. This popularity, which
Mr. Dewdney has gained, is due to
the fact that he has become pretty
widely known, and his many good
qualities recognized. There is no
doubt that at first a good deal of differ-
ence of opinion existed as to the way
in which the Territories were
governed, but when the difficulties at-
tending the government of a country
springing into existence so rapidly
are considered, the wonder will not be
so much that mistakes may have been
made, but that they have been so
specifically corrected by experience. It
is a recognized fact that the auto-
cratic disposition with which, for some
reason or another, Mr. Dewdney was
credited at the outset, does not exist,
and neither after number who has
gone to the Northwest Council, 3-
trained most bitterly to oppose the
Government, has been disturbed by
the discovery that in his desire to en-
courage popular government, Mr.
Dewdney has often voluntarily aban-
doned his prerogative, even voting up
to members the deposit of funds, in-
tended to be controlled by himself
alone. Mr. Dewdney's popularity is
extensive with his dependents, and
despite this, and the fact that he has
moved about at an earlier period, he would
much less readily have been recog-
nized as the possessor of a most affable

and courteous manner, the outcome
of a frank and generous nature.
There is good reason to believe that
were the reappointment of Mr.
Dewdney in the hands of the members
of the Northwest Council, it would be
made all but unanimously, and the
few who might hesitate, would do so,
not from personal doubt as to the
wisdom of the course, but from defer-
ence to the prejudices of that part
of their constituents, who, from want of
personal acquaintance with Mr.
Dewdney, or from reasons referred to
above, are not in favor of his resap-
pointment. It certainly seems that
when the Dominion Government is on
the point of allowing the Territories
the management of its own affairs, it
would be a great mistake to lose the
advantages of Mr. Dewdney's exten-
sive knowledge of all matters pertain-
ing to the government and the inter-
ests of the country; and it would be
very questionable whether at such a
time it would be wise to make the
change even were Mr. Dewdney much
less justly popular than he is.

MR. PERLEY'S ADDRESS.

We have transferred to our col-
umns for the benefit of our readers
the type from which Mr. Perley's ad-
dress has been printed. That gentle-
man has clearly defined his position
as a candidate asking for the votes of
the electors of East Assiniboia.
While stating that he has always
been a consistent supporter of the
policy of Sir John Macdonald's
Government, Mr. Perley takes the
true position that a representative
of a Northwest constituency should
occupy. His platform is precisely
that enunciated by the Hon. A.
Mackenzie on his accepting the
Reform nomination for East York
in Ontario. In his letter of accep-
tance Mr. Mackenzie said "I warn
you that when the interests of the
country conflict with the interests
of the party, I stick to the country."
That is the position of every true
patriot who is not a hide-bound
partisan, and had we more such
men in the House of Commons,
there would be an improvement in
the manner in which the country is
governed. Mr. Perley is a safe
man to vote for. His views are
in accord with the Administration
of the day, and should it occur that
a change of Government would
take place, his manly independence
is such that he could serve his
constituents by refraining from a
factious opposition without at all
compromising his allegiance to the
party of which he is a member.

SUPPORT THE BONUS.

It affords us much pleasure to be
confirmed in the faith that THE PRO-
GRESS had placed in the intelligence
of the farmers of the municipality
of South Qu'Appelle. We learn
that many of the farmers on be-
coming acquainted with the real
facts of the case in connection with
the proposed bonus to the Wood
Mountain and Qu'Appelle Railway,
and are deciding in favor of the
bonus. There are still a few who are
being misled by the narrow and self-
ish views that the road will not bene-
fit them or that they will get thereof
without a bonus. Before polling day,
we believe that most of those
who are still unconvinced will
rally to the side of progress and
development, and vote to bring the
railway right along.

Mr. H. M. Stanley expects to reach
Rimba Bay by day at the latest.

Russia is said to have proposed a
friendly plan for the settlement of the
Balkan trouble.

Mr. Ross, Premier of Quebec, has
sent in his resignation to the Lieu-
tenant Governor. It is rumored that
Attorney-General Tully has re-
sponded to the call to form a Cabinet.

NOTES AND COMMENTS.

A Reform convention is an-
nounced to be held at Broadview on
Feb. 1st, to nominate a candidate to
oppose Mr. W. D. Perley.

The names of Dr. Edwards, of
Qu'Appelle, and Mr. Chappel, of
Moosemin, are mentioned as prob-
able candidates for the Reform
nomination to contest East Assini-
boia with Mr. W. D. Perley at the
coming election.

At a meeting of the delegates
from the district around Prince Al-
bert to nominate a candidate for the
Commons in the Conservative inter-
est Mr. D. H. Macdowell was
chosen. Mr. Macdowell's election is
very probable.

The reports from the east indicate
that the probably majority that the
Conservative party will obtain in
the coming election will be larger
than was at first supposed. It is
said by those who may be considered
in a position to judge that both
Ontario and Quebec will give the
Government handsome majorities.

A petition is being circulated in
this district to be presented to the
Dominion Government asking for
the reappointment of His Honor
Edgar Dewdney as Lieutenant-Gov-
ernor of the Northwest Territories
for a second term. It is being
largely signed by the people of the
district. As an instance of Mr.
Dewdney's growing popularity we
notice that the Macleod Gazette,
which has been his most bitter as-
sailant among the press of the
Northwest, in its issue of the 18th
inst., refers to him in favorable
terms, and gives him credit for a
desire to carry on the affairs of the
Northwest Government in accord-
ance with the wishes of the people.

A CONSERVATIVE CONTRAST OF TWO POLICIES.

Montreal Gazette: And then, the
country over, there is the broad dif-
ference between the policies of the
two parties which opponents of the
Government will not be able to de-
viate attention from by raising local
issues. The Conservatives can point
to the growth in the manufactures
of the country, and the necessarily
increased employment given to the
people, which has marked the period
of their rule; to the development of
the railway system, which they have
aided and will continue to aid, and
in which every section of the Dominion
has shared; to the growth of the
population, as shown in the statistics
of the chief cities; to the more than
satisfactory condition of business, evi-
denced by the trade returns, and the
activity that prevails in all manufac-
turing industries, and to the prospe-
rous development that awaits the
trans-Pacific trade route across the
continent, which must confer many
benefits upon the Canadian people.
The Liberals have to show, as the
product of their eight years in op-
position, nothing but a series of criticism
and fault-finding, a host of evil pro-
phesies that have been demolished
by the facts of events, and a worn-out
charge of extravagance that their
leading men admit to be unfounded
when they can hold out no hope of a
remedial tax increase as the result
of their course to power, there can be
no holding in the choice between these
two records, if twenty men who have
done the utmost in their power, and
done it with effect, and those who
have only stood by to find fault.
Place these facts squarely before the
electors and there need be no fear of
the result. There is room for still
another grand victory of the Conser-
vative cause in Canada yet, and if
those who uphold it set rightly to
work, their triumph may be hardly
less marked than it was in 1878, and
the Liberal boasts proved to be but
the effect of that pride that goes
before destruction.

Bismarck is credited with encourag-
ing Russia to use energetic means of
settling the Bulgarian question, with
the prospect of bringing about a
general peace, out of which Germany
would pick up something good for
itself.

THE CANADIAN NORTH-WEST TERRITORY.

Glasgow Herald.

5 Regent Crescent, Langside,

Glasgow, 27th September, 1886.

Sir—My attention has just been
called to a letter in the Herald of the
21st inst., dated from Moosejaw,
Assiniboia, Northwest Territory, and
just recently arrived here on a visit,
after a residence at Fort Qu'Appelle,
a short distance this side of Moosejaw,
may I be permitted to make some
observations on your correspondent's
letter, and on the Northwest Terri-
tory generally? In consequence of
the past summer having been excep-
tionally dry, I regret not being able
at the present time to do anything
else than corroborate the statement
contained in the letter referred to,
more especially when the writer
states his belief that "it (the North-
west) will remain its character and
come out all right." I am personally
acquainted with leaders and settlers
who have been in the Northwest for
from twenty years downwards, and
they unanimously say that the seasons
there run in wet and dry tracks of
about four years each. Now, the
districts above named were only
surveyed by Government and thrown
open for homesteading under four
years ago—in fact, at the end of a
wet and the beginning of the dry sea-
son, unfortunately for the interests
of the "pioneer settlers" and the
reputation of the "Great Northwest."
It is also now generally acknowledged
that emigrants having homesteaded
as their object bring too little capital.
The amount as given in the various
pamphlets and by the verbal advocates
of emigration to the Northwest Terri-
tory may be sufficient if everything
went "just" and fell to their hands,
but there is no margin left for emer-
gencies. When I went to Fort Qu'
Appelle three years past it presented
the appearance of an encampment.
Now we are a municipality with a
properly established Town Council.
We have built an Episcopal, a Presby-
terian and a Methodist church, the
two former handsome stone buildings,
and all under the charge of duly
ordained and worthy ministers, hav-
ing also stations up in the prairie.
We have a Sch. of Board, and a school
presided over by a duly qualified and
popular teacher. We have a bank;
three lawyers, one a member of the
Northwest Council, another on the
point of getting married when I left,
and the other looking out for a wife.
We have a weekly newspaper, The
Vindicator, which for its enterprise and
talent has been acknowledged by the
old Eastern papers to be second to
none in the Northwest. We have
four stores, which for completeness of
stock in groceries, hardware, ladies'
and gents' clothing, &c., will vie with
any in a good-sized Scotch or Eng-
lish town. We have two hotels—one
announced the largest west of Win-
nipeg; and we have lately completed
our flour mills on the new "roller
process system," which have been
grinding all the past summer at the
rate of not less than 24 hours per
day, and whose flour has been exam-
ined and compared by one of the old-
est and most reliable flour merchants
in Glasgow, and favourably ranked
along with the United States Minne-
sota flour. Now, Sir, all this has
been accomplished within four years,
and surely it says something in favor
of the Northwest. I am also person-
ally acquainted with English and
Scotch families who have repeatedly
told me that, in spite of the past dry
season and other drawbacks, they
would not like to return to the old
country, because the climate of the
Northwest, both summer and winter,
is so healthy, the prospects are so
good, and their faith in the ultimate
successful development of the land is
so great. I propose returning to
Qu'Appelle in a few weeks, and in the
meantime will be very pleased to
answer any inquiries and afford every
information in my power to intending
emigrants.—Trusting that in all fair-
ness to the "Northwest" you will
insert this letter, I am, Sir,

TO THE ELECTORS OF EAST ASSINIBOIA.

GENTLEMEN,

The time is not far distant when you will be called upon to elect
a Representative to serve your interests in the Dominion Parliament.

Having been solicited to be a Candidate by a large number of electors
in the several sections of the District, and nominated by the Liberal-Con-
servative Association of Mooseomin, as well as received a Requisition signed
by nearly all the residents of my own municipality, and after having
carefully considered the matter I have concluded to accept a Nomination
at the forthcoming Election.

Personally I am unknown to many of you, which is unfortunate inas-
much as I believe the electors should know something of the man to whom
they entrust so great and important duties as those of a Representative
in the Dominion House of Commons. I am, however, partially able to
obviate this disadvantage by pointing you to my course as a Representative
in the North-West Council, and as a Delegate from that Council to
Ottawa last winter. The duties of both of those positions I have the
proud satisfaction of knowing I discharged in a manner satisfactory to my
honorable colleagues in council and the people of the Territories generally.

I shall endeavor at as early a date as possible to hold public meetings
in as many of the most populous parts of the District as I possibly can,
and from the public platform personally make known to you my opinions
on the various public questions of the day.

In the meantime I may tell you I have always been a consistent sup-
porter of the Policy of Sir John Macdonald's Government, and while
they may have erred in some respects in the past management of North-
West matters, I now think that, with the knowledge they have obtained
of this country through the visits of the several ministers, particularly the
Hon. Thos. White and Sir John Macdonald, together with such assistance as
the Representatives from the Territories will be able to give them, that in
future we may reasonably hope that the legislation will be in keeping
with the best interests of the country.

I will use my best efforts to secure for the Territories a Legislative
Assembly, with a sufficient subsidy from the Federal Parliament to enable
the Local Government to carry on the affairs of the country, particularly
the Educational and Agricultural interests, in a liberal and satisfactory
manner. The Liquor Permit System, now so obnoxious, however well
administered, will then be under the control of the people.

I am not, as a general rule, in favor of second homesteading, but I be-
lieve those persons who came to the country under a promise and expec-
tation of getting a second homestead, and who had perfected their first
homestead duties prior to the third day of June last, should have the
right of taking up a second homestead if they desire to do so, regardless
of whether they had made application for their patents on or before that
date or not.

I am firmly of the opinion that the successful development of the
country is very largely depending upon the Railway facilities given the
settlers, therefore, if honored with your confidence as I believe I will be,
I will use every effort within my power to induce the Government to
immediately use such means as will secure the extension of Railways
through the southern and northern portions of Assiniboia, and thus relieve
those persons who have been so sadly disappointed and neglected in the
past.

I shall endeavor to convince the Government of the great advantages
that will accrue to them and the people of Canada, particularly those in
the Territories and Manitoba, by the immediate commencement and early
completion of the Hudson's Bay Railway; believing as I do that there
is no expenditure that the Government could make of a like sum that
would increase the population, enhance the value of the lands, give
greater value to our securities, augment the commercial interests of the
country and insure the wealth, happiness and general prosperity of the
people of the Territories and Canada as a whole, so much as the construc-
tion of this Railway.

I am of the opinion until such time as the North-West Territories has
representation in the Cabinet, that greater responsibilities will rest on the
North-West Members than on other ordinary Members of Parliament;
I shall therefore consider it my bounden duty to spare neither time nor
pains in the discharge of those responsibilities.

I believe, so long as our Representation from the Territories is so
small and our wants so great, that a Representative can best serve the
interests of the country by refraining from a factious opposition to
the Government of the day; I shall therefore reserve for myself the
right of exercising my own judgment, and when the acts of the Govern-
ment conflict with the interests of the people, I will be found on the side
of the people.

Since my settlement in the country, I have on all occasions, both
privately and in my public capacity as a Member of the North-West
Council, advocated such measures as tended to the advancement of the
settlers' interests; and now, with the experience I have had in political
affairs in the country, together with the fact that my own personal invest-
ments are of such a character that their value alone depends upon the
success of the country and prosperity of the people, you may be
assured of the course I will pursue if honored with being your
Representative.

Owing to the vastness of this district and the very inclement
season in which the election is coming on, it will be impossible for me to
see as many of you as I would like before the election. But if
honored with your confidence, I will make it my business at the very
earliest moment possible to visit those sections not yet seen, and learn
from the people the interests they wish me to especially look after.

Gentlemen, I respectfully solicit your suffrages at the coming election
in a way that will make me the Representative of the undivided electors

Yours respectfully,

W. D. PERLEY,

Walseley, Assin, Jan. 20th, 1887.

QU'APPELLE.

—Thawing yesterday.

—See advertisement and poster announcing Mr. and Mrs. J. F. Guerin's costume recital.

—A concert and lecture in aid of the land is being arranged for to come off at the beginning of March.

—Those members of the toboggan club who have not paid their dues are requested to do so this week, if possible.

—Services in the Methodist church here and at Edgeley next Sunday as usual. Rev. O. Darwin is expected to officiate.

—Sir John Kaye has arranged to import from England all thoroughbred stock amounting to over six hundred head for his experimental farms in the Northwest.

—After a large portion of one edition was printed, we this morning received a number of letters containing matter intended for this issue. Owing to the cancellation of Tuesday's train they are twenty-four hours late, but will appear next week.

—A lecture will be delivered by M. Ryan, Esq., subject, "Country Life," tomorrow (Friday) evening, in the immigration building, Qu'Appelle, in aid of the Roman Catholic church. Mr. Ryan's ability as a lecturer is a guarantee that all who attend will enjoy a rare intellectual treat. Tickets 25 cents. Doors open at 7:30. Lecture to commence at 8 o'clock.

—A carnival will be held at the rink on Tuesday, February 8th, which will probably be the last of the season. The Qu'Appelle brass band will be in attendance for certain. Mr. Gorrell apologises for the absence of the band at the last carnival, owing to some of the members not being able to reach home in time to attend. A grand time may be expected.

—On Saturday evening last, a meeting of the supporters of the railway bonus was held in McLane's hall. The large number present indicated the deep interest the ratepayers are taking in the growth and development of the municipality, and that they are determined to pass the bonus to secure the railway. A strong committee was appointed, which met after the meeting adjourned and prepared for a thorough canvass of the municipality. It will require a thorough work to poll the required number, but it can be done.

—On Sunday last the services at St. Peter's church were conducted by Rev. Mr. Nicholls of Mosمون, who preached both morning and evening to large and attentive congregations. Amongst the evening congregation were Lieutenant-Governor Dewdney and party. This is the first time His Honor has attended service at the Pro-Cathedral of the Diocese, and he expressed himself as pleased with the church and services. The National Anthem formed the voluntary at the close of the evening service.

—The greatest consolation to one growing old, is the improved surroundings which come with age, experience and wisdom. We are reminded of this fact by the appearance of the new Seed Annual of D. M. Ferry & Co., the celebrated seedsmen of Detroit, Mich. (They enjoy the enviable reputation of being the widest and best known firm in the United States.) Millions of people, gardening both for profit and pleasure, have found ever increasing satisfaction and delight in using their seed. Every one desiring seeds of the highest type and best quality, should secure their Annual. It is sent free on application.

—The Farmer is a well edited, well printed, thoroughly practical newspaper for farmers. Its general matter is well selected; it contains an excellent department for the Family Circle, and counts among its contributors some of the best writers on agricultural and kindred matters in the country. Practically it must be worth to every farmer many times its subscription price, and every number contains much to interest, instruct and amuse all members of the family. Sample copies of The Farmer sent free for examination. Subscription price is only \$1.50 per year. Less than three cents a copy. No charge is made for copies of The Farmer unless ordered by the recipient.

—The Burns concert on Tuesday evening was a grand success. Every piece on the program was so well rendered that it deserves more than a passing notice. Owing to lack of space this week, we are compelled to defer a full report till next issue.

—The Progress does not need to "appeal" to the "generosity" of the farmers of the municipality to vote for the railway, nor does it need to try to impose on them. The farmers study their own interests, and The Progress is the medium through which they get their information.

—The friends of Rev. Mr. Andrews at Edgeley have been very generous to their pastor this winter. They have been hauling wood in sleigh lengths to the parsonage at Qu'Appelle and accumulated a large pile, when last week Mr. Wm. Bell, of Edgeley Farm brought his sawing machine out here, and assisted by a number of the friends cut the wood into stove lengths. There was upwards of fifty cords, and the saw went through it in about five hours. The machine is really an excellent one and Mr. Bell thoroughly understands how to handle it.

THE CARNIVAL.

On Thursday night of last week, a grand masquerade carnival was held at the skating rink. The ice was in splendid condition, and the dresses were many of them first-class. A string band of music was present and enlivened the evening. There was a large attendance of skaters and non-skaters, and the affair was of such a success-failure that Mr. Gorrell may expect a still more pronounced success at the next one. The following with others were in dress:

Phosphorites, George Hudson. Olsen, J. C. Crowe. Salvation Army, Miss M. Adams. Prairie Flower, Mrs. Gorrell. Nun, Miss Bulvea. Marie Fodorina, Mrs. Sutherland. Snowshoe, Mrs. Bootie. Snowshoe, Miss Estina Adams. Flower girl, Miss Tab t. Winter, Miss S. Gibson. German girl, Miss G. L. spie. McMillan Bros., Willie Davidson and Milton Talbot. Blackie, Albert Walker. Volunteer, H. Lymburner. Negro Girl, Geo. Davidson. Pierott, Willie Lymburner. Pierotte, Florence Lymburner. Indian Girl, Flora Wismer. Spanish Girl, Minnie Wismer. Scotch Lassie, Lizzie McLane. The following were the prize winners: Best ladies' costume, Mrs. A. Sutherland. Best gents', Geo. Hudson. Best couple, W. Clouston. Best girls', Lizzie McLane. Best boys', Albert Walker. Messrs. A. C. Paterson, G. B. Murphy and C. C. Bailey acted as judges.

WE WONDER

—Who says Syme's dog is not fed?

—Who went to the boarding house the other Sunday night and got left?

—How long the G. C. C. K. spoke at the railway meeting on Saturday night last?

—How a quarter column letter can contain so many falsities and so little argument?

—Why some people call ex-Councillor Wright the Great Chronicle Constitutional Kicker?

—Why a man can favor a \$25,000 bonus to the Wood Mountain and Qu'Appelle Railway and be opposed to one for \$10,000?

—Whether the letter of Mr. W. T. Thompson will not disabuse the minds of those who think they will get the railway, bonus or no bonus?

—If that is the (Wright) argument in the Regina Journal letter that the railway will run through Qu'Appelle, bonus or no bonus.

—Whether the farmers of this municipality are "green" or "blind" as "A ratepayer" insinuates in the Regina Journal, and whether the expression "shallow senses" will not apply to the writer?

Correspondence,

(Our columns are open to all provided the subject matter is of public interest, and proper language is used, but in no case do we hold ourselves responsible for the opinions expressed by our correspondents.)

THE RAILWAY BONUS.

To the Editor of The Progress,

Sir,—It is stated that in the north-western portion of this Municipality some of the Ratepayers hold the opinion that if the bonus is not granted the Railway it will run direct from the Fort to Regina, while others in this vicinity and to the south believe that in any case the junction will be at Qu'Appelle, there does not appear to be sufficient foundation for either of these views. If no aid is granted it seems probable that the Fort will secure Railway connection with the C. P. R. by the shortest possible route so as to have equal facilities for traffic with both eastern and western points; reference to a map will show that such a route would cross the C. P. R. east of this Municipality and that its length would not exceed 18 miles, while from the Fort to Regina the distance is 40 miles, and it is evident that all freight from the east passing to the Fort via Regina would be carried 60 miles further than by the direct connection referred to, such a railway would not supersede the present stage line.

From the above considerations it is evident that if the Bonus is not granted the probability is that the Railway will pass to the east of this Municipality, if on the other hand it is granted the construction of the Railway right through it from north to south will be secured as well as the expenditure of a large sum of money next summer with in the Municipality and among its ratepayers.

Yours truly,
W. T. THOMPSON, C. E.

TO THE EDITOR OF THE PROGRESS.—

Sir,—The first performance of Professor Thompson's municipal menagerie and performing troop took place on Monday the 17th inst. The initiatory ceremony being amicably arranged and the spectators duly seated, the professor announced that he would soon introduce his celebrated performing white Elephant (the Railway bonus). To the surprise of every one, in trots Barney in single harness, with head erect and neck arched bearing steadily upon the reins and going in his best form. Although the track was somewhat heavy, he left the score at a tremendous speed, succeeded in making the quarter in shorter time than he had ever accomplished at any previous trial, but, in passing the Electors, began to flag, striking the home-stretch at a steady jog, passing under the wire in his usual time. Next upon the tapis was ambiguous Jo from the north, noted for his ground and lofty tumbling, mounted upon his celebrated steed (public popularity), entering the arena in magnificent equestrian array, accomplishing the double somersault in splendid style, when suddenly the treacherous brute became unmanageable, finally landing Jo upon *Toto Firma*, when he underwent a few acrobatic contortions, and was lost sight of amid the excitement that ensued upon the announcement being made that Barney was up for second trial. Barney was wheeled into line at once and quickly got under motion, breaking up as he crossed the score, he failed to accomplish anything more than the first trial showed. The driver thinking that he had only got his wind, brought him up for a third trial, this time reaching the quarter in the same time as in the first heat, but unable to spurt upon the home-stretch, and springing badly at the delapidated petition and numerous ratepayers, he completely broke down as he passed under the wire without improving the record.

Jo and Barney were now brought in, in double harness, hitched to the old time honored van (public deception). All during a trip over the municipality, were invited to get aboard and see for themselves. Failing to get any passengers, the start was delayed, Barney in the meantime became obstreperous, got

excited, stamped, balked and laid down; Jo reared, backed up and finally kicking himself clear, was a little disfigured, but still in the ring. This scene was brought to a close by the professor calling for the Elephant, who was immediately introduced by his keeper and went through his several performances, amid silent applause from his admirers.

The exhibition was brought to a close by the choirister singing the following stanza, assisted by the audience:

We will rise in our might;
We will vanquish this Wright.
Who has clearly proved himself wrong.
We will vote for the bonus,
Every Mother's Son of us,
And hauls this railway along.
